**MHLABOMUSHA GROUP (MG)**

## **MHLABOMUSHA GROUP**

Welcomes our internal and external stakeholders, particularly our customers, suppliers and employees to our very first Mhlabomusha Group (MG) monthly newsletter. The purpose of our newsletter is to ensure that we bridge the gap of communication and transparency for our stakeholders.

Our very first edition comes as MG introduces a balance scorecard approach to ensuring our strategic objectives for 2026 are met. The approach involves measuring Financial, Customer, Operational Performance and Organizational Capacity management.

In the months to come, I will be giving feedback to our stakeholders how we are doing in terms of the objectives classified for the balance scorecard. For now, I wish every stakeholder a blessed 2026 as this year marks a vision of Going Back to Basics for Growth at MG.
