NEWSLETTER

Greetings to all our Stakeholders

We are well into the year 2026, in fact approaching finishing the first half of 2026. The. As we reflect and conduct a self and company retrospection, our **BALANCE SCORECARD** is now implemented and is the backbone of our performance monitoring. The staff of Mhlabomusha Group (MG) has also done well on implementing the balance scorecard. This approach is improving our service delivery to all our customers and other stakeholders.

Customer satisfaction continues to improve, showing we have dedicated stakeholders to our brand. Our employee training has been vital to our performance, with staff being trained on ISO 22301 (Business Continuity Management), Compliance Management, Safety Reps and Dangerous Good transport. Our focus will now be on ISO 9001 training and certification for the organization and also Project Management.

We continually strive to manage our safety by improving our systems, investigating every near miss, and putting the controls in place. Mhlabomusha continues to strive on excellent service on all the work we conduct and build sustainable relationships with our stakeholders. We also continue to tailor make solutions that are cost effective for our clients. This is also in mind with the current fuel challenges.

Let's continue being resilient and lets all win.

Yours in Steering this Ship
